

Care & Maintenance Instructions

General cleaning
Dust regularly with a soft, dry cloth. For deeper cleaning, use a damp cloth and dry immediately.

Avoid harsh products
Do not use abrasive cleaners or chemical products, as these may damage the finish.

Protect from heat
Avoid placing hot objects directly on resin surfaces to prevent deformation.

Handle with care
Resin can be sensitive to pressure and impact. Avoid forcing, bending, or dropping items.

Prevent scratches
Use placemats or soft materials to protect the surface from scratches.

Indoor use only
This material is intended for indoor use.

By following these guidelines, your resin furniture will retain its shape, finish, and elegant look for years to come.
