

GLASS

Care & Maintenance Instructions

Clean spills immediately
Dab spills with a soft cloth to prevent spreading and avoid streaks.
Use soft materials
Clean with a microfiber cloth and a light mist of glass-safe cleaner or water. Avoid excessive moisture.
Avoid harsh chemicals
Do not use ammonia-based or abrasive cleaners, as they can damage coatings and leave streaks. Stick to mild, non-ammonia cleaning solutions.
Protect from scratches and stains
Use coasters and mats under glasses, vases, and other objects to prevent accidental spills and scratches. Avoid sliding heavy objects across the surface.
Dust regularly
Wipe with a soft, lint-free microfiber cloth to maintain clarity and prevent dust buildup.
Use mild cleaning solutions
For stains or smudges, a mixture of water and vinegar or a non-ammonia glass cleaner works well. Apply sparingly and wipe dry.
Prevent heavy impact
Avoid dropping or dragging heavy objects across the surface, as glass can crack or shatter.
Indoor use only
This product is for indoor use. Outdoor exposure can cause damage.
Avoid excessive weight
Glass furniture is sturdy but has its limits. Do not place heavy objects on unsupported areas, such as the center of a glass table.

By following these simple steps, your glass furniture will remain elegant and well-maintained for years to come.
