

COLLADA

The Collada collection, a symbol of modernity and luxury, consists of furniture with a unique composition of materials. This collection combines MDF, brass, and metal in an unparalleled design, incorporating both veneer and solid elements that contribute to the overall aesthetic.

What sets the Collada collection apart is the craftsmanship involved in shaping each piece of furniture. The mix of MDF and brass elements enhances the aesthetic, making each piece of furniture unique and striking. The metal is carefully folded around the wood and secured with small nails. This process creates a unique interplay of textures and colors. The shades of brass metal add an element of elegance, making the furniture in this collection stand out.

Maintenance

To maintain the beautiful appearance of the Collada furniture, it is important to treat them with care. The use of coasters is recommended to prevent any stains and scratches. Wiping them with a slightly damp cloth followed by thorough drying is essential. It is crucial to properly dry the furniture, as metal is susceptible to moisture. This not only prevents stains but can also avoid potential rust spots. Metal is moisture-sensitive, and insufficient drying can lead to rust spots.

With the right care, you can preserve the modern and luxurious appearance of the Collada collection, enriching your interior for years to come.
